

STOP: PROTECT OUR KAURI

**Kauri dieback disease is killing Auckland's kauri trees.
It spreads via soil and mud movement.
Act now to help stop its spread.**

ALWAYS

- > Clean your footwear before you enter this area.**
- > Clean your footwear after you leave.**
- > Keep away from kauri tree roots as much as possible.**

**Report any sightings of diseased kauri to the Auckland Regional Council
on 09 366 2000 or 0800 80 60 40 or biosecurity@arc.govt.nz**
